

Bekapcsolás után a magyart érdemes választani!

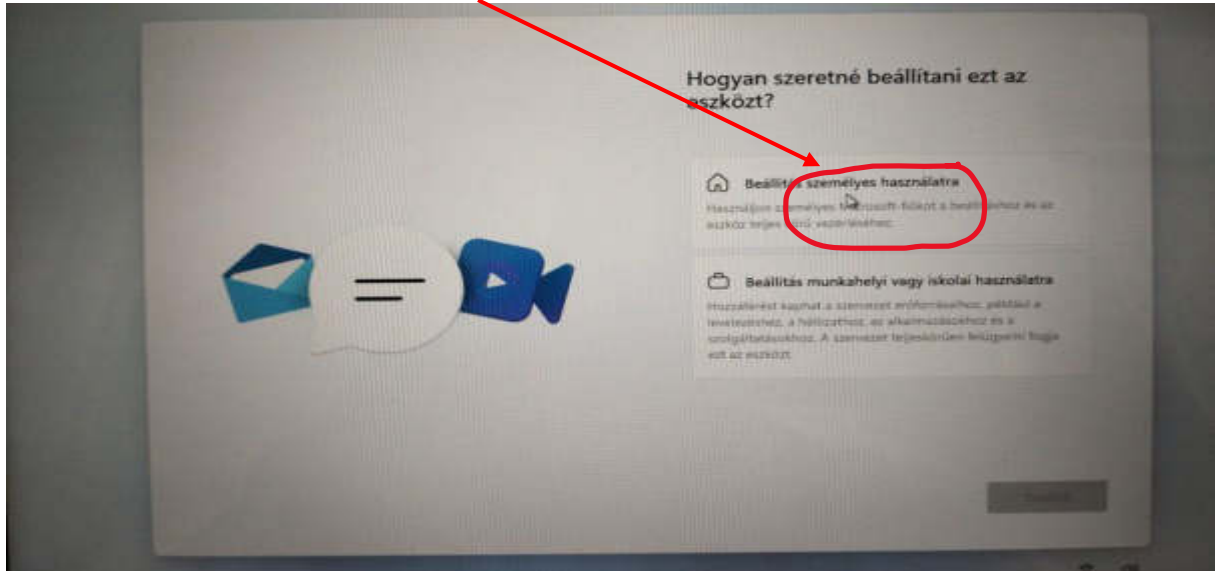

Az otthoni wifit kell választani!

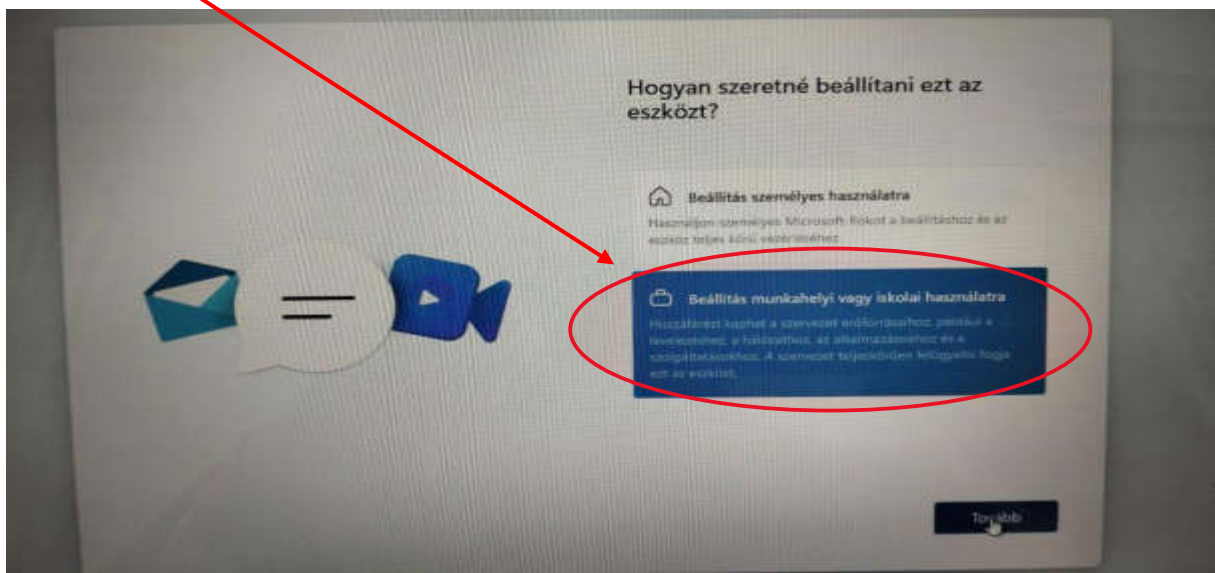

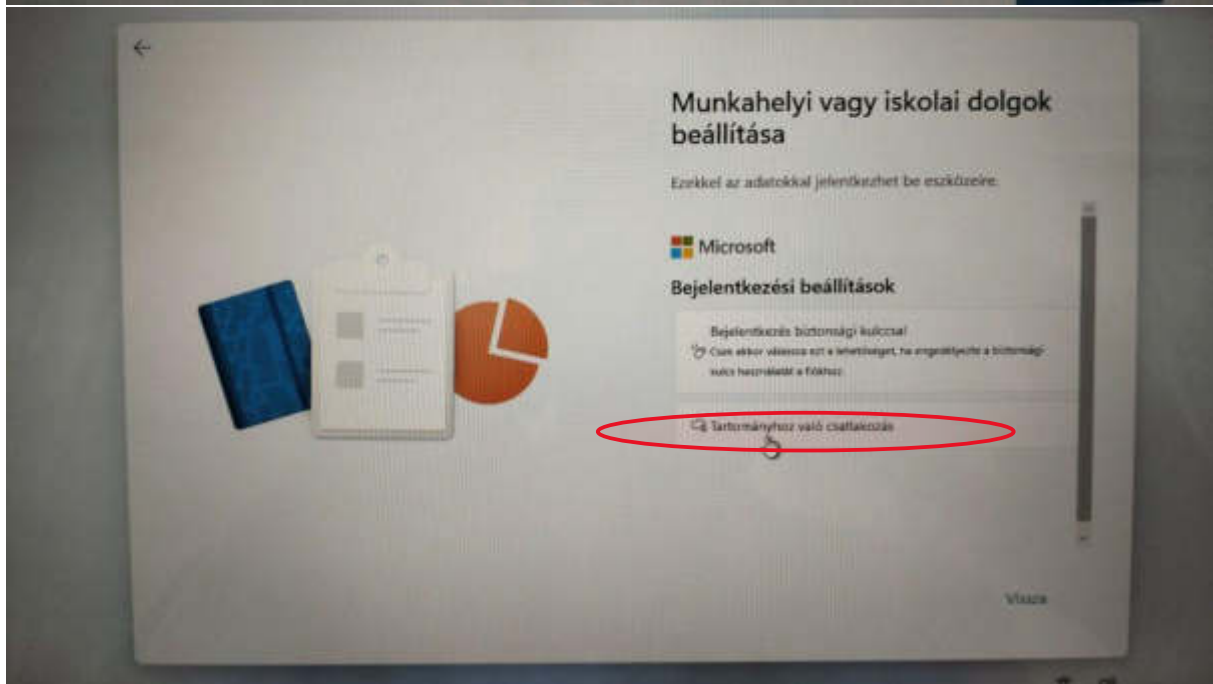

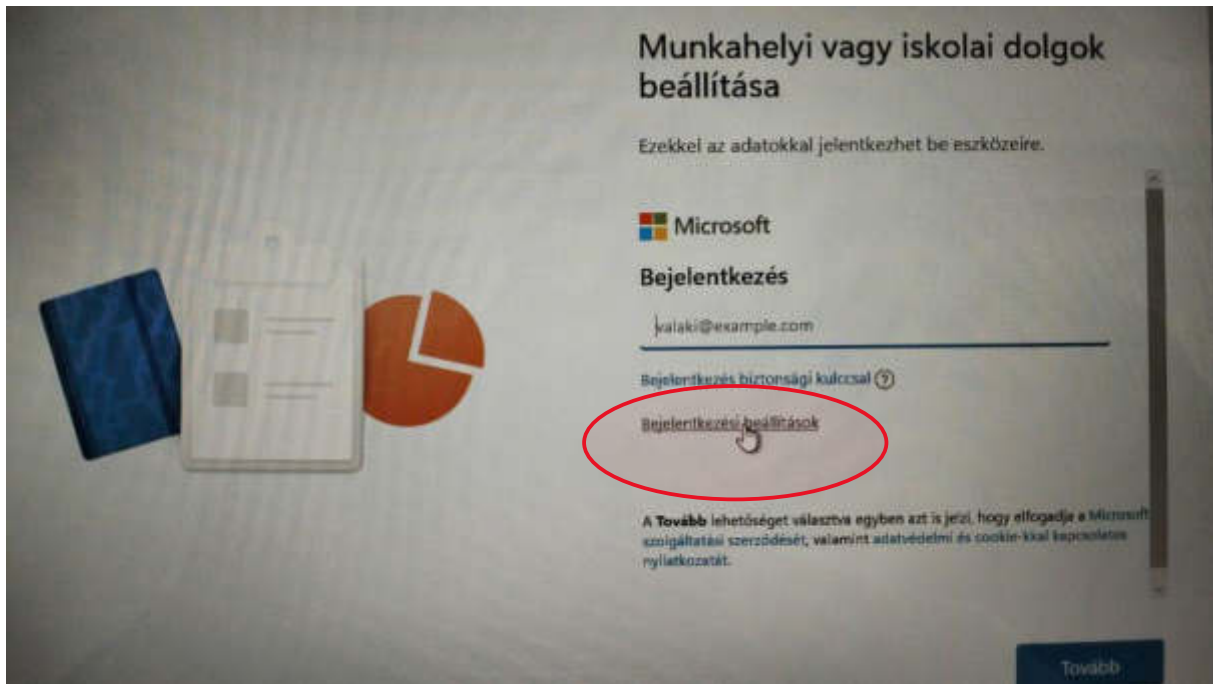

Bármilyen nevet lehet adni a laptopnak.

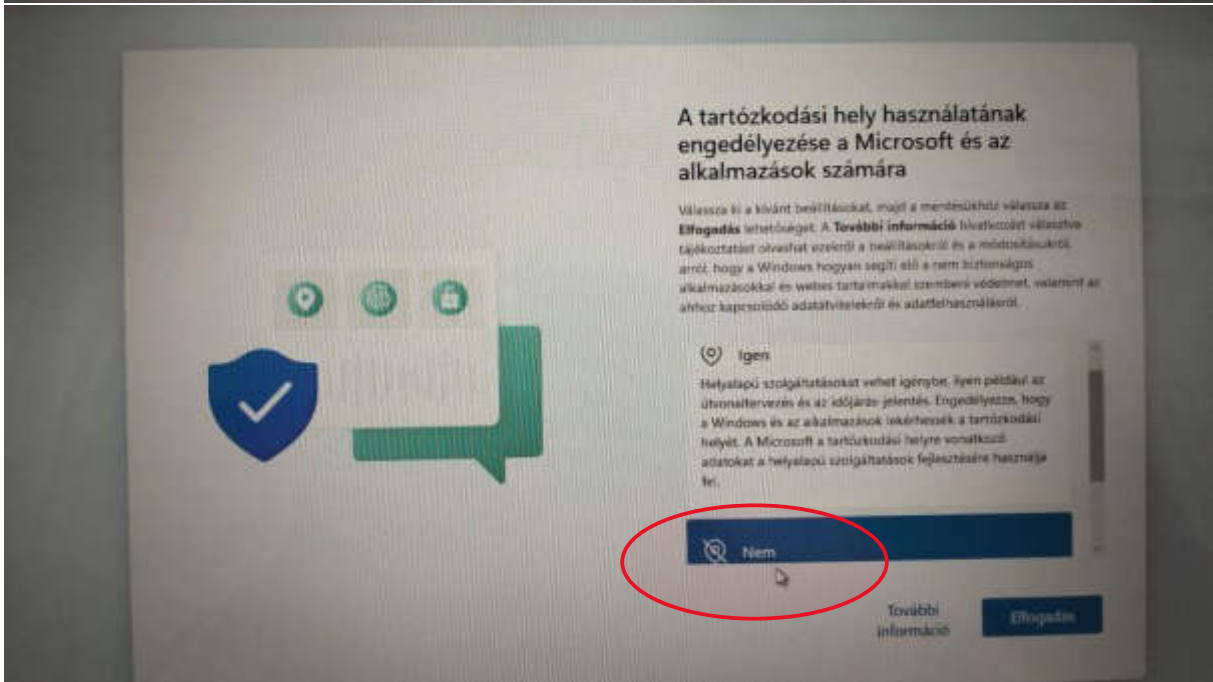

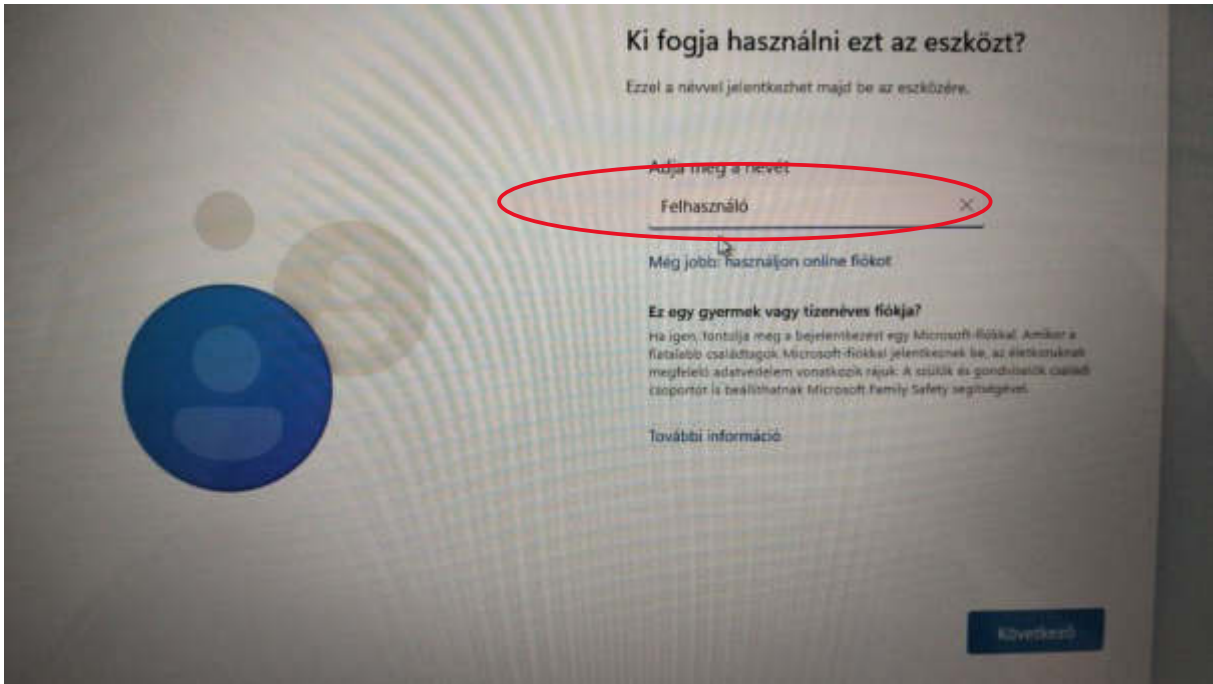

Microsoft emailt használók, microsoft regisztrációt választók itt a „személyes használatot” jelölik, de

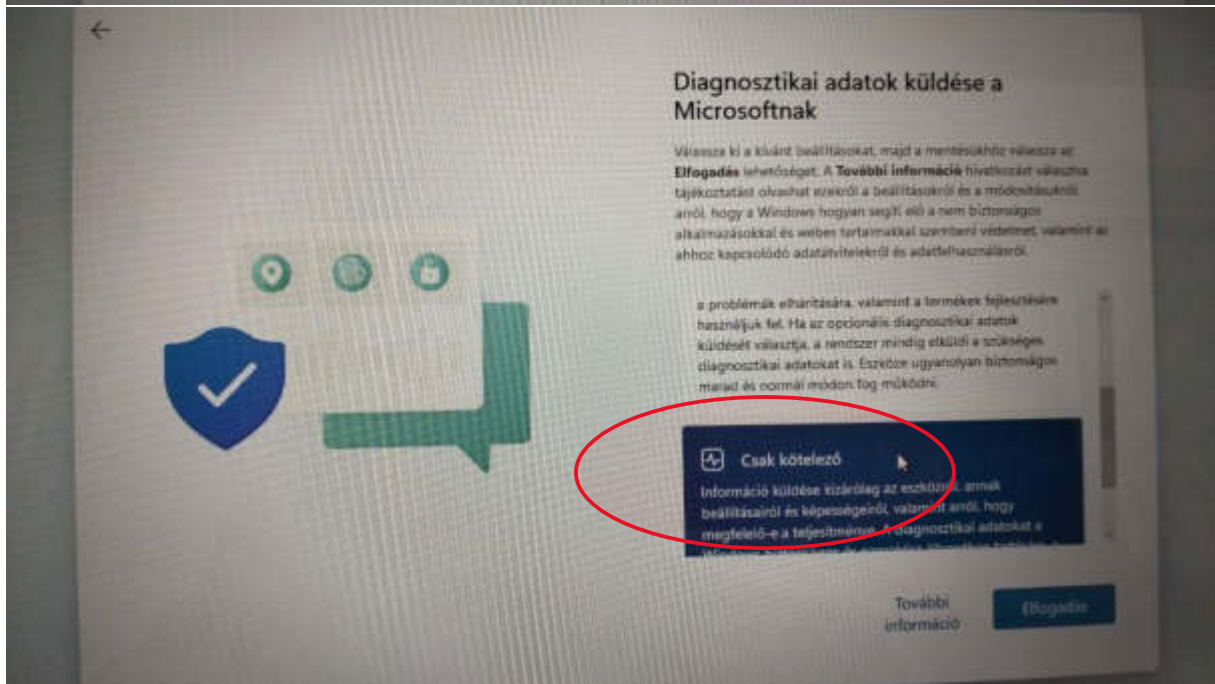

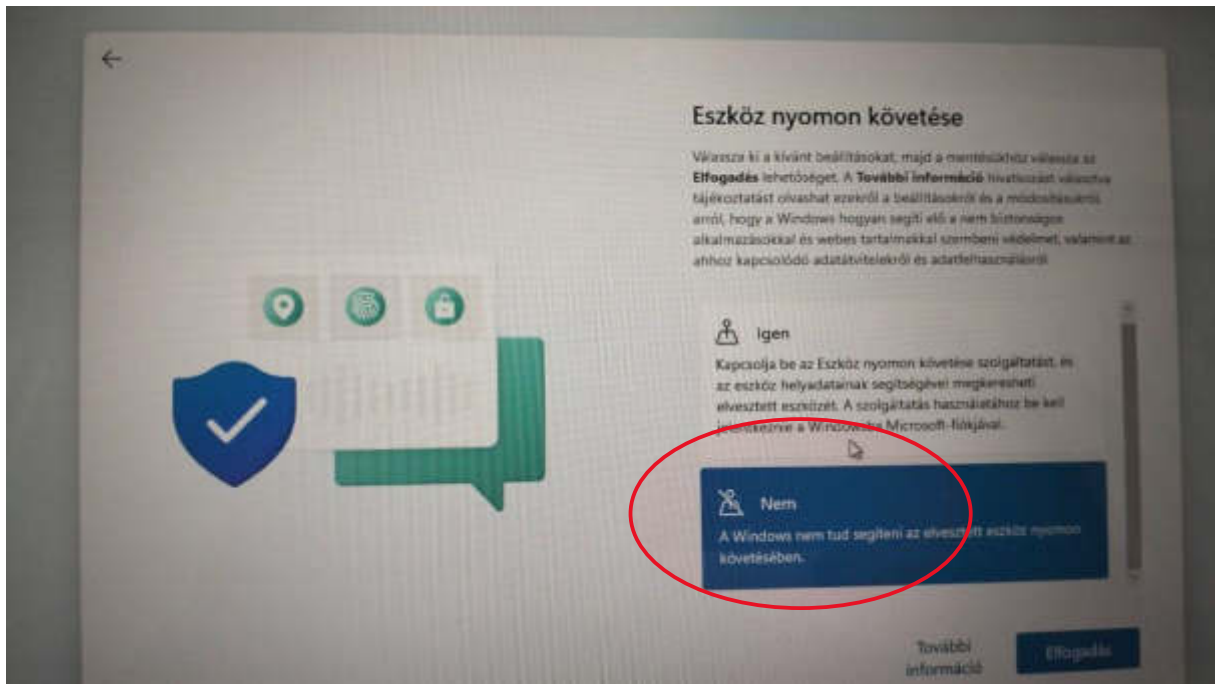

ha nem akarunk microsoft fiókot regisztrálni akkor a „munkahelyi vagy iskolai” kell választani.

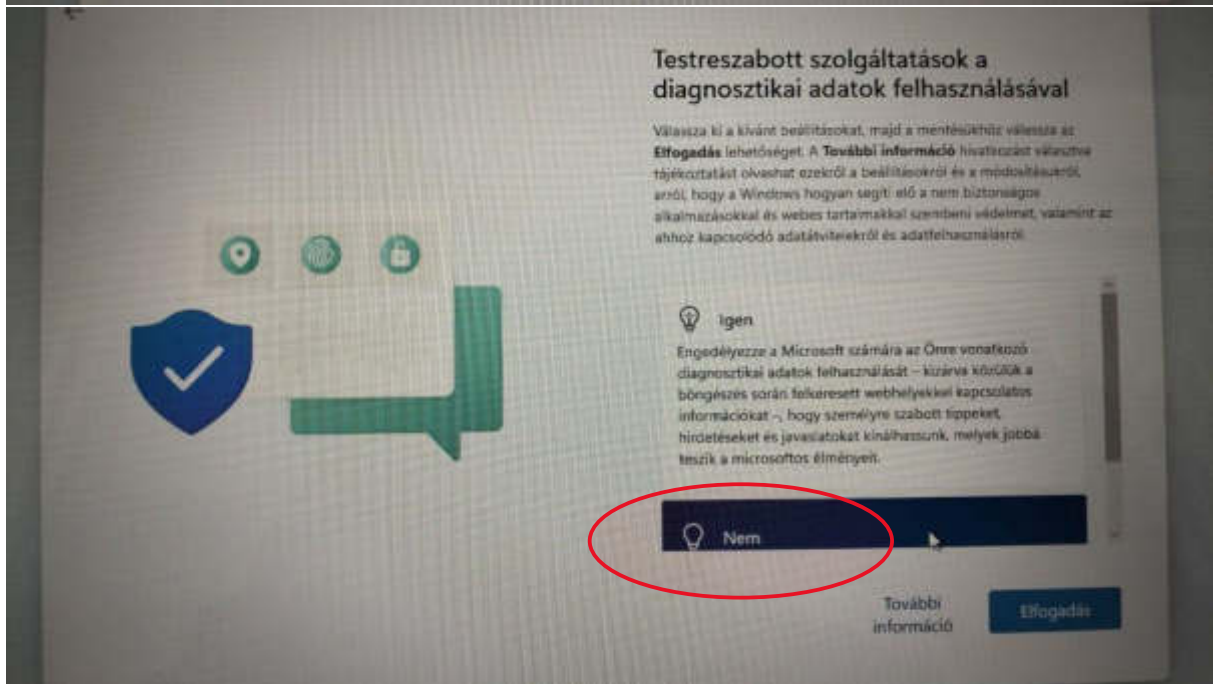

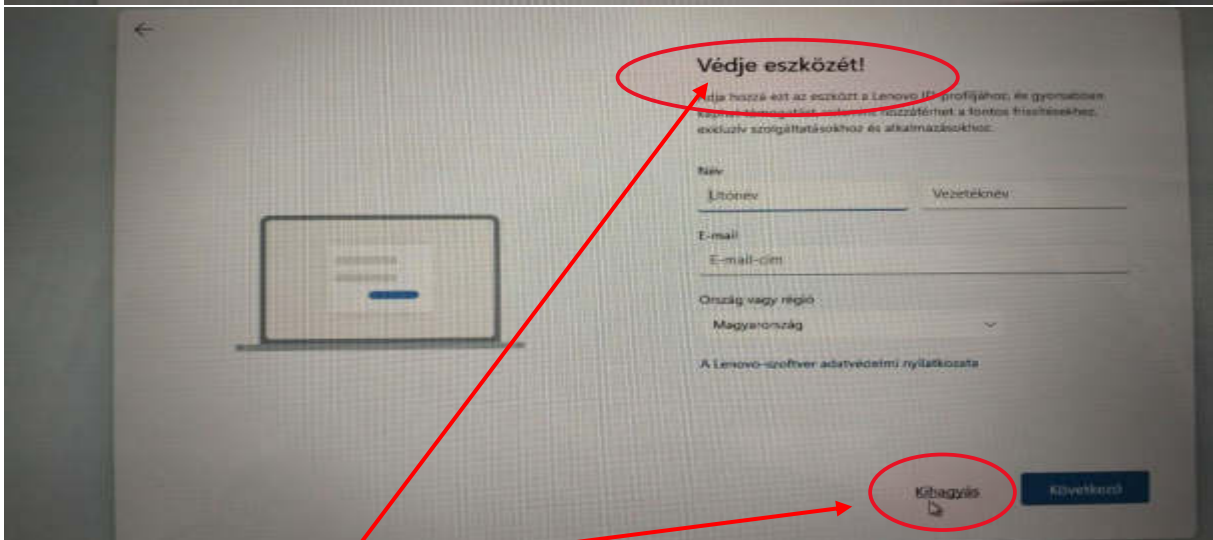

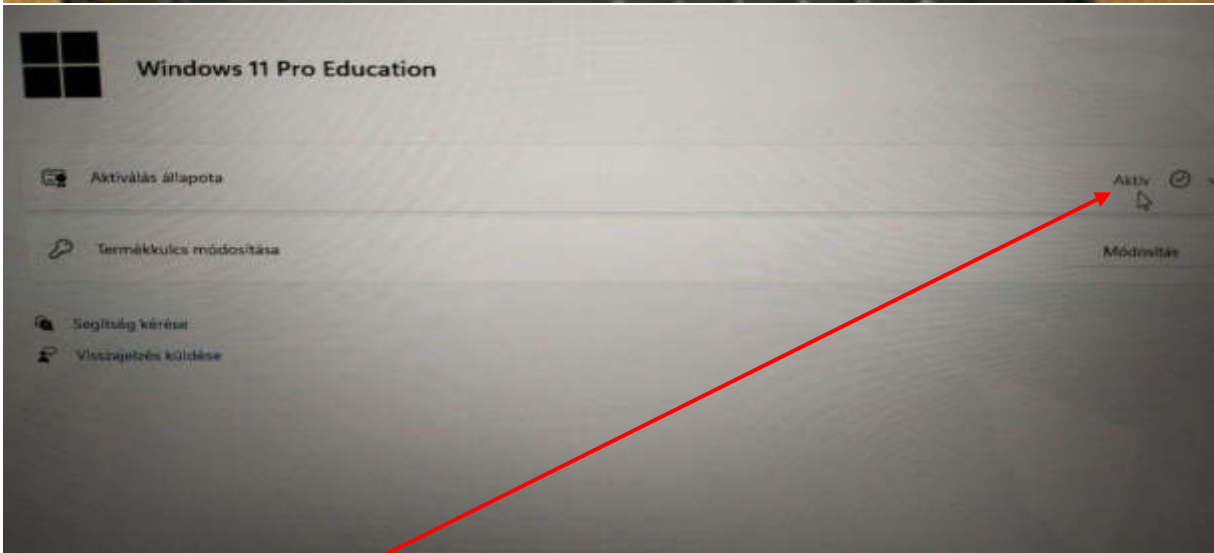

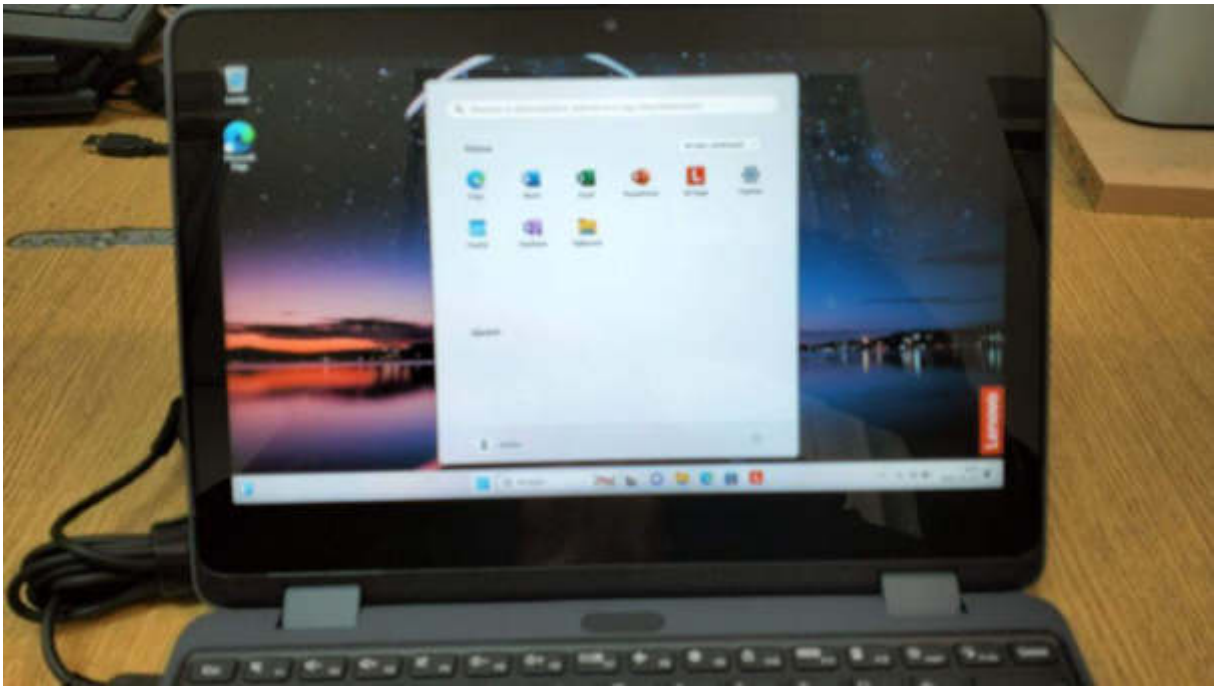

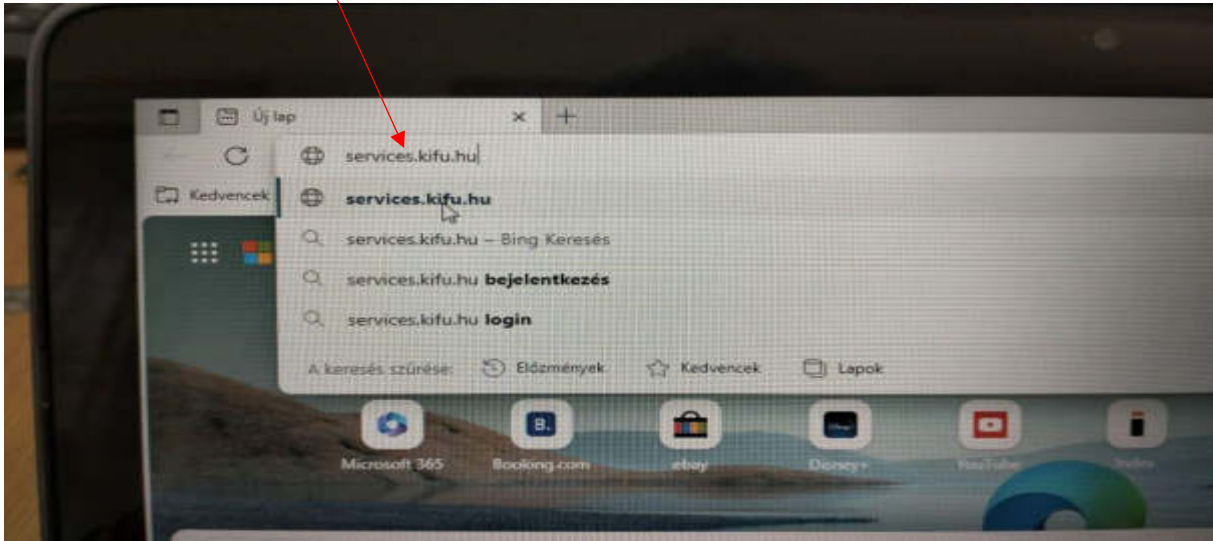

Ezt mindenki maga dönti el.

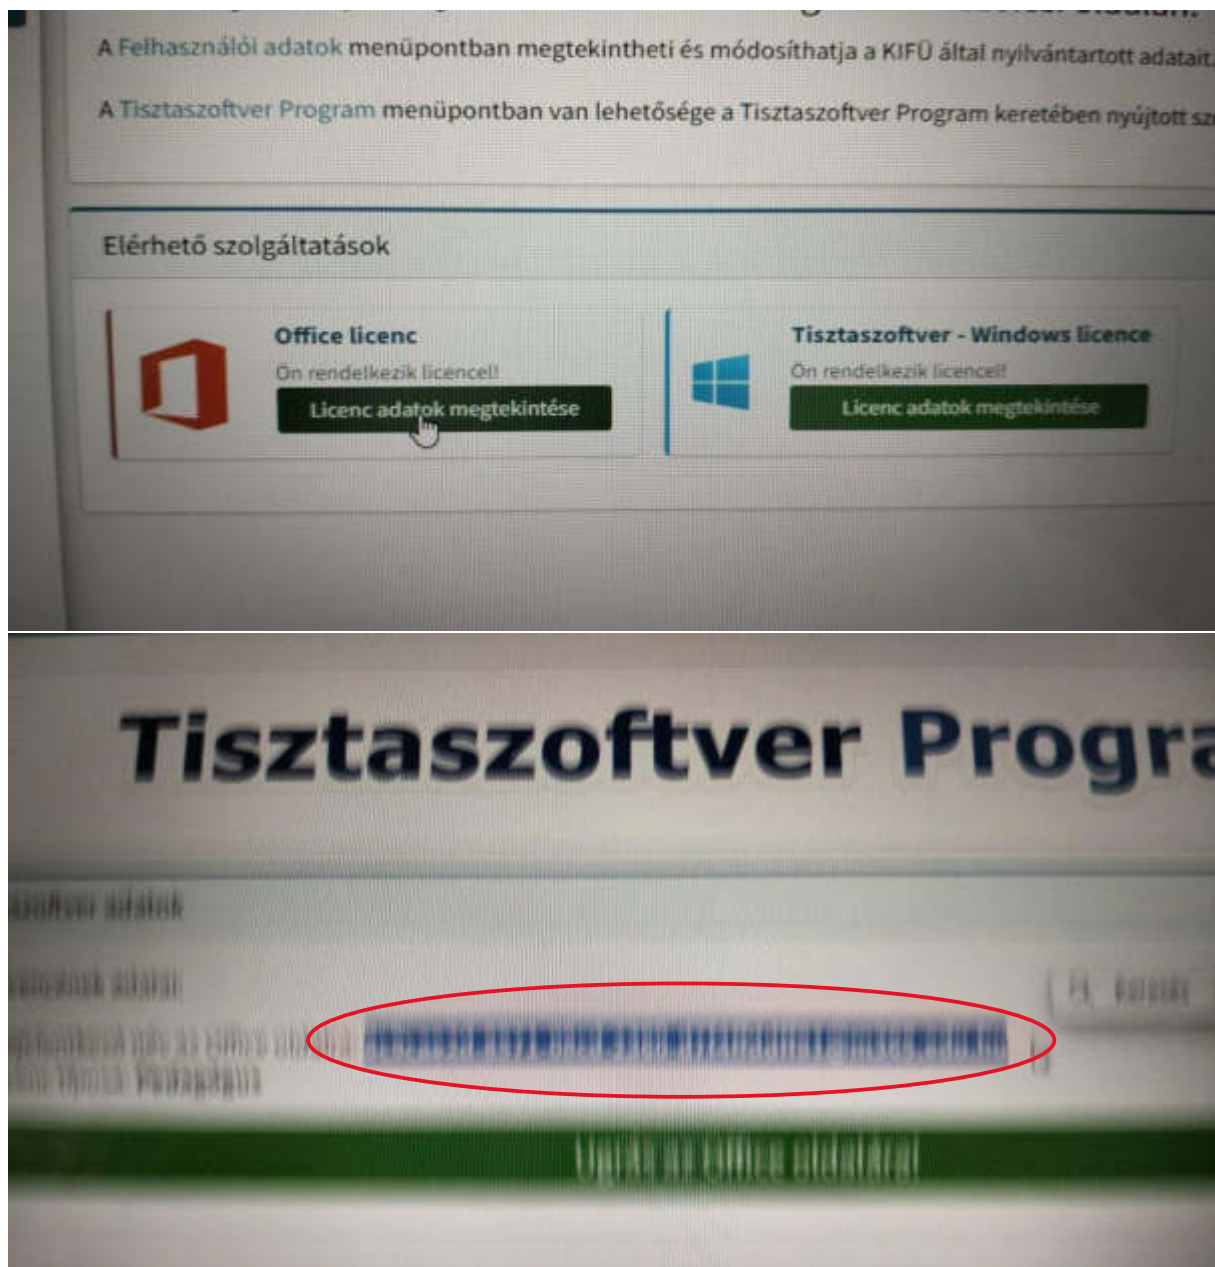

A windows11 kész. Aktiválva.

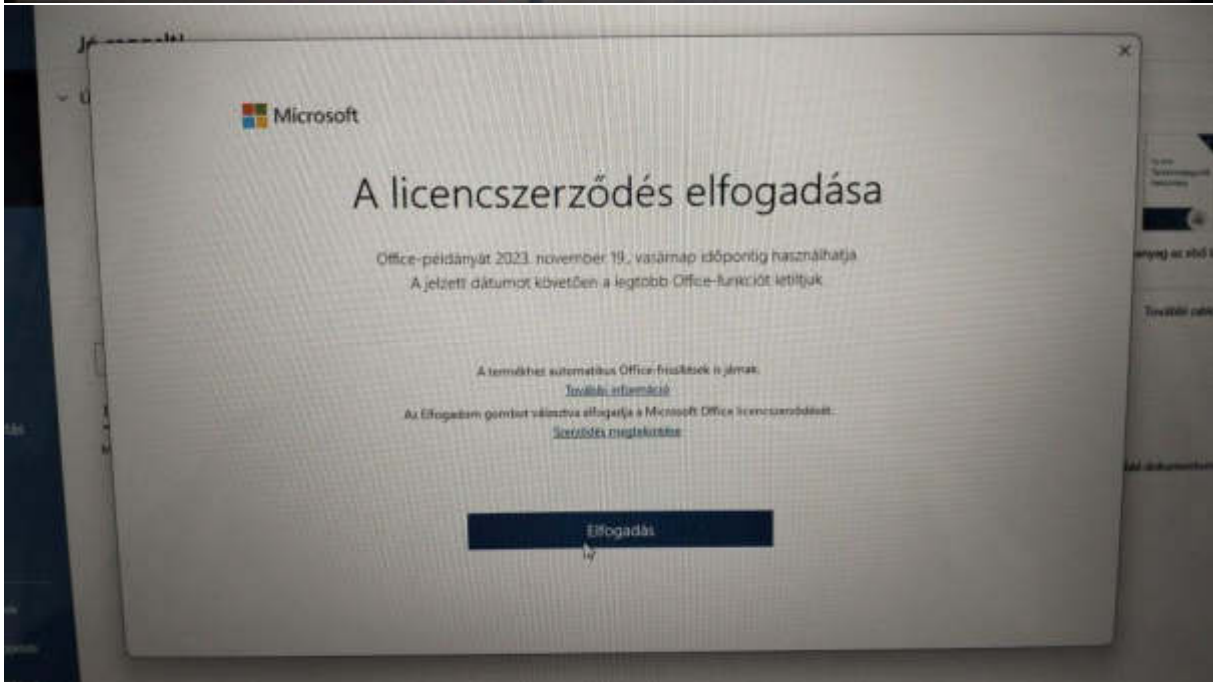

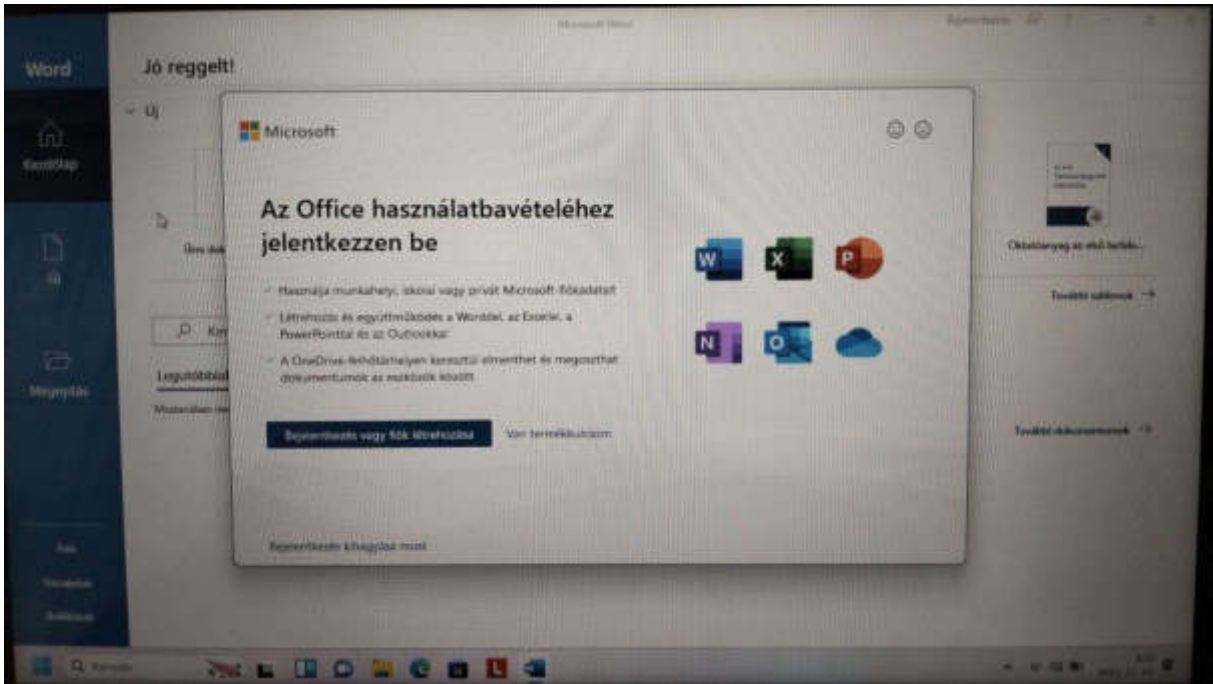

Az office aktiválása krétáva következik, amiről akár videót is nézhetünk már a youtubeon.

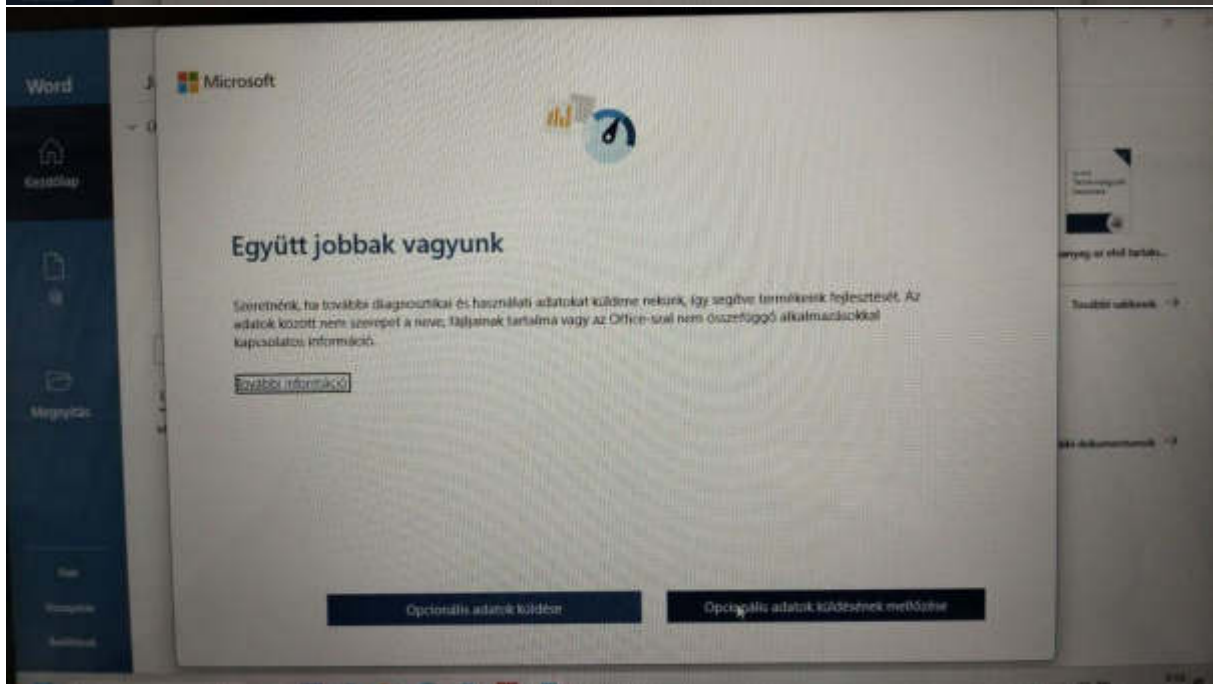

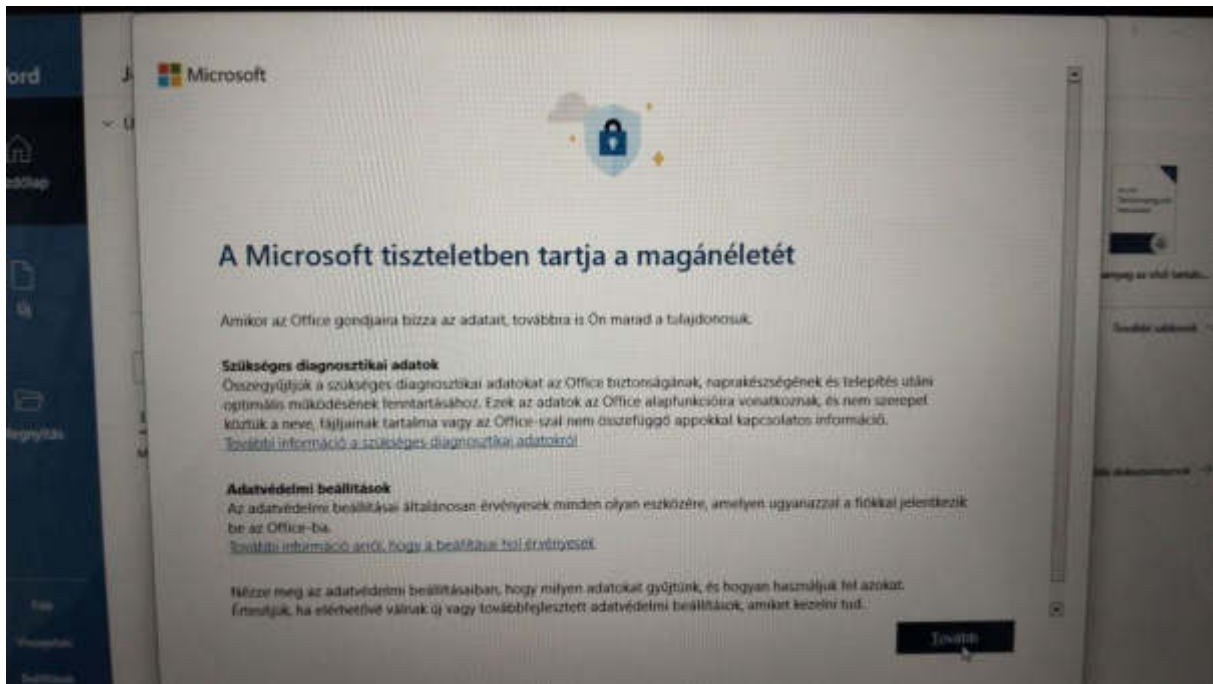

Vagy ezt követjük: [services.kifu.hu](https://services.kifu.hu)

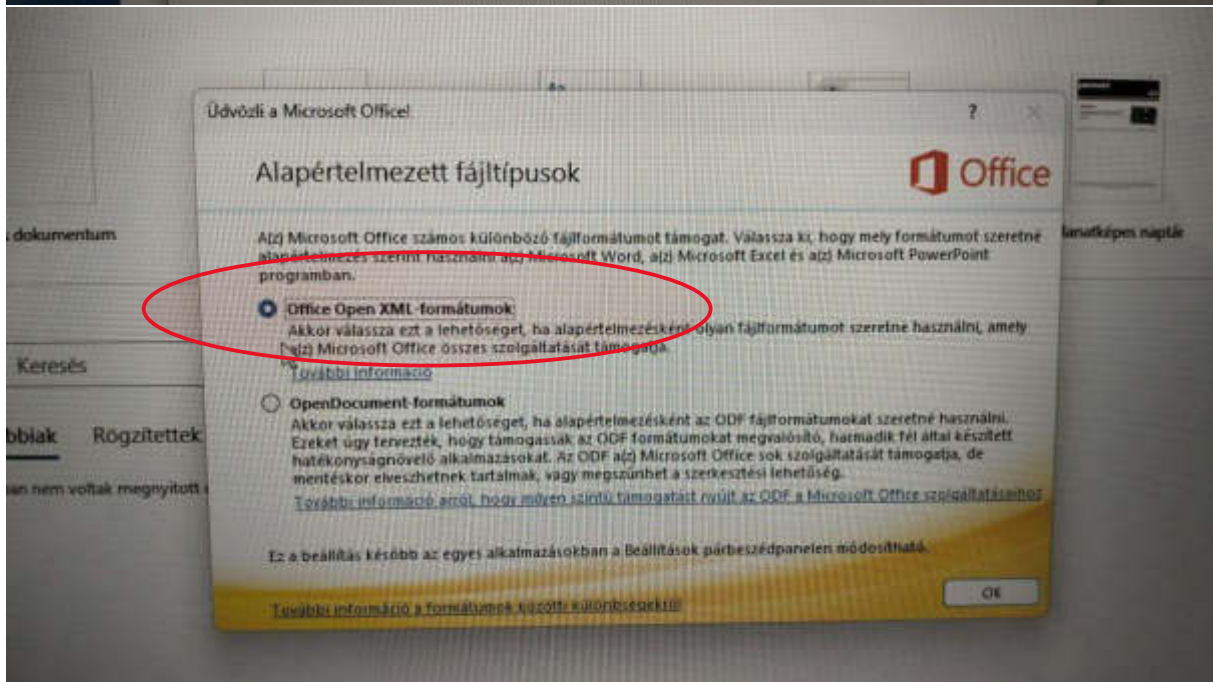

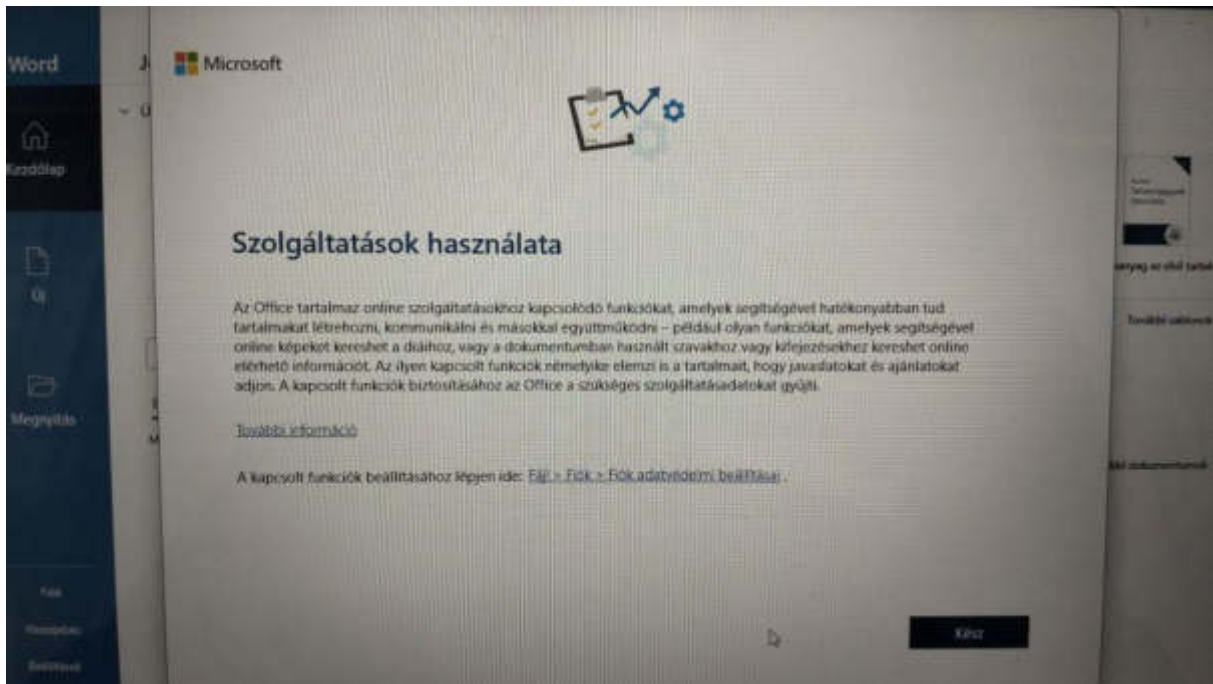

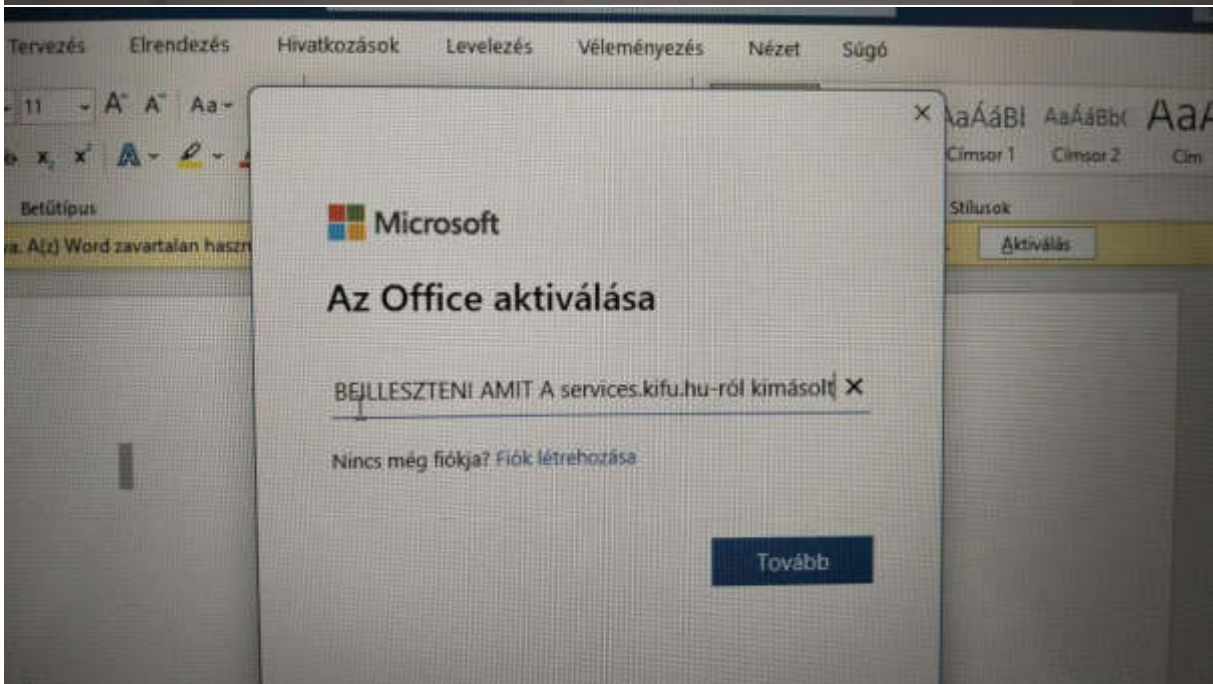

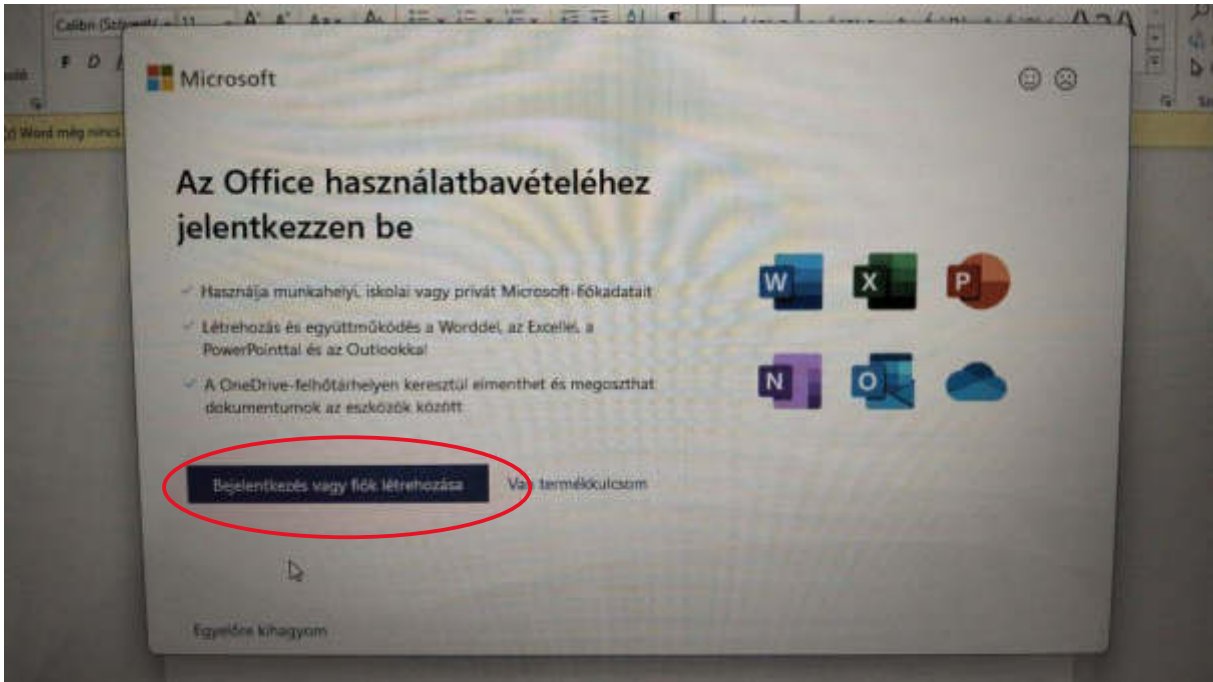

Ezt a .....@m365.edu.hu sort kimásoljuk. Majd megnyitjuk a word programot.

CTRL+V segítségével ide pedig beillesztjük amit kimásoltunk a service.kifu.hu oldalról. Kész.
